Indiana University, Bloomington

Luddy School of Informatics, Computing, and Engineering
Bachelor of Science of Data Science | Minors: Statistics, Spanish

May 2027
GPA: 3.78/4.00
Luddy Dean's List

Work Experience

LabCorp - Workfront Associate – Center of Excellence Intern

June 2026 - Present

- Leading an initiative in Global Project Management to govern ~400 tools by interviewing leadership
- Executing preliminary work for a predictive model to increase study efficiency using python/excel
- Representing LabCorp as campus ambassador for a worldwide internship program

UC Berkeley Graduate Economics Study - Research Assistant

April 2025 - April 2026

- Facilitating research through web scraping and cleaning raw data to be used in modeling
- Participating in model development with strategies such as regression and sentiment analysis
- Examining injury patterns among NCAA athletes and its impact on healthcare

Pro Football Focus (PFF) - Part-time Contractor

May 2025 - February 2026

- Detailing football plays live so PFF analysts can provide insights to NFL and CFB teams
- Training in Pro Football Focus University to prepare for the season starting in August

Takes (Daily Sports Trivia App) - Consulting Intern

May 2025-May 2026

- Giving feedback to a startup application aiming to be the Duolingo of sports by using LLMs
- Testing edge cases in the app to protect the company from future issues

Indiana University Women's Soccer - Manager

July 2024-May 2025

- Designed a data collection system using Excel to help the team identify potential advantages
- Transformed raw game data into graphics so that more informed decisions can be made by coaches

Projects

NBA First Basket (Co-Founder)

February 2024-Present

- Using Python to develop a model that can predict shots in an NBA game for our clients
- Improved model in-between seasons to increase profits to 45 units in the 2025-26 season
- Developing web scraping and transformation skills while obtaining the data

Archiforms (Independent Contractor)

July 2026-Present

- Working with a local architecture firm to develop a generative floor plan program
- Using Claude to implement design aspects and develop a UX that can be used by non-architects

Technical Skills

Programming: Python, SQL, R, Excel
Visualizations: Tableau, Microsoft Office

AI: Claude, Kubernetes
Management: Workfront, pgAdmin

Community Involvement

Sports Analytics Association (Club) (Co-President and Founder)

August 2026-Present

- Running meetings by giving presentations on how statistics, ML, and AI apply to sports
- Facilitating competitions, projects, and guest speakers for students to grow in sports analytics

Grupo Ñ and Café Hispano (Clubs)

January 2024-Present

- Creating and communicating events to students to learn Spanish and meet people
- Improving on my B2 (Upper Intermediate) level of Spanish and volunteering at the Lotus Festival

Fintech at IU (Club)

December 2023-Present

- Building relationships between technology and business students
- Practicing critical thinking with mock interviews and discussing current events
